This is a book for every adult written with humor in mind while at the same time providing valuable information backed by scientific studies at times. Any reader who has ever worked anywhere is likely to identify personally with one or more of the personalities in the book. Identifying various personalities at the workplace takes sometime depending on the number of employees at the workplace. Recognizing the unique tendencies and characters at the workplace aids in promoting a better working environment by respecting and recognizing the differences among the various employees or coworkers.
