Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest eBook i have read during my very own daily life and could be he best eBook for possibly.

The Nest Seekers is a primary level children s book about a real Earthwatch Expedition that takes place in the Grand Teton Mountain Range in northwestern Wyoming. The book chronicles this expedition through the eyes of four research scientists, also known as The Nest Seekers, who are trying to find the nests of four target songbirds to determine the impact housing development is having on their habitat. During the story, the scientists are outwitted as they try to find the nests of the American Robin, Yellow Warbler, Black Headed Grosbeak, and the Song Sparrow. In the end, the scientists are not that lucky but they sure do have fun in the process! Learn more about the book by visiting The Nest Seekers web site companion at /site/nestseekersguide/.
