Reviews

*Thorough information! Its such a good study. Sure, it is perform, still an amazing and interesting literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Evie Emmerich)*

National Geographic Children's Books. Paperback. Book Condition: New. Paperback. 64 pages. Dimensions: 9.5in. x 6.7in. x 0.3in. Galileo made the first effective use of the refracting telescope to discover important new facts about astronomy. His observations led him to support Copernicuss claim that Earth and the other planets circled the sun. This conflicted with the teachings of the Catholic Church, and brought Galileo before the judges of the Inquisition. He spent his final years under house arrest. Galileos genius lay in the way he approached scientific problems. He reduced problems to simple terms on the basis of experience and common-sense logic. Then he analyzed and resolved the problems according to simple mathematical descriptions, thus opening the way for the development of modern mathematical physics. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org commoncore for more information. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
