

## secondary school materials: chemical energy knowledge

By HE ZHAO PING

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pages Number: 178 Language: Chinese. Publisher: Chemical Industry Press Pub. Date :2000-11-01. chemical energy knowledge describes the chemical energy of the basic principles and applications. The book is divided into five chapters. The first chapter is an introduction. Chapter II discusses the energy balance of the steady flow system to explain the first law of thermodynamics and its application in the steady flow system. also introduced the calculation of thermodynamic properties of real gases. The third chapter discusses the basic principles of chemical energy. Through the discussion of the second law of thermodynamics to study the nature of the energy loss . established the first law of thermodynamics and second law of combining the modern with the energy theory. Second. the three chapters is the theoretical basis of the book. The fourth chapter introduces the basic principles of thermodynamics Thermodynamics of chemical process analysis method. and Typical chemical unit processes and chemical production equipment for the thermodynamic analysis. is the application of the basic principles of chemical energy. the fifth chapter is the chemical industry energy-saving technologies introduction....

### Reviews

*Comprehensive information! Its this sort of excellent go through. It is packed with knowledge and wisdom You may like just how the author publish this book.*

-- **Mustafa McGlynn**

*Complete guideline! Its this kind of great read through. It is probably the most incredible pdf i actually have read through. Its been developed in an extremely straightforward way and it is simply soon after i finished reading this book through which actually modified me, affect the way i really believe.*
