Designating this cost by F and the corresponding annuity by f , we have for a life policy: Net premium after 1st year $SP = P + f$ Net premium 1st year $P = P + f - F$ This plan appears to answer all the requirements. The cost of collection and renewal offers no difficulties, being a function, which we will designate as k , of the premium after the first year; but as it will really need to be a function of the gross premium, we defer it for a moment. The cost of management may be added to the net premium as a fixed amount (c), each year including the first The values of P , F , f and c are, then, determined in advance, and we have the following requirements established: P , (gross premium 1st year) = P , ...
