Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. In response to a congressional request, GAO analyzed the Social Security Administrations (SSA) budget request for its information technology systems modernization for fiscal year (FY) 1988. GAO found that SSA: (1) budgeted about 283 million for its proposed systems modernization plan, including software development, database integration, and management information; (2) estimated that it would require about 8.2 million for additional telephone acquisitions, including 2 million for contracts associated with automatic data processing maintenance; and (3) revised its budget for FY 1988, drastically reducing its need for hardware procurement, and cancelling a distributed data processing task force project. GAO also found that: (1) SSA would have a 181 million carry-over balance at the start of FY 1988, more than the 116 million that SSA projected; (2) since SSA decided to use in-house resources for its software improvement, it would not need an estimated 500,000 in FY 1988; and (3) although SSA revised its budget request in many areas, it planned to increase its 1988 request in areas dealing with telephone acquisitions and maintenance. This item ships from La Vergne, TN. Paperback.

Reviews

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Brennan Koelpin**

Comprehensive guide! Its this type of very good read through. It is actually writter in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.
